About Me

I'm an experienced software developer with a strong focus on frontend development. While I have hands-on exposure to full-stack technologies, my passion lies in building responsive, accessible, and user-friendly interfaces.

Skills

- Angular, React, Vuejs
- Bootstrap, Tailwind
- Git Control Version
- Nodejs - Nestjs
- AWS, GCP
- .Net MVC & Razor (FE)
- Java Spring Boot
- PHP Laravel
- MySQL, Postgresql

🎓 Education

Bachelors Degree Computer Science (Mutimedia Computing)
Universiti Teknologi MARA - UITM   2014 - 2018
Graduated in September 2018 with a CGPA of 3.32. Achieved strong results in programming courses. Developed a native Android app for mobile data security using Java for the final year project.

Matriculation Certificate
Johor Matriculation College   2013 - 2014
Completed Pure Science matriculation with a CGPA of 3.22. Studied Chemistry, Physics, Biology, and Mathematics. Served as a Committee Member for Community Service and Class Practicum.

💼 Experience

Senior Software Developer
Agmo Studio Sdn Bhd   2021 - Now
- Progressively promoted from E1 to E2, and then to Software Engineer (SE) level.
- Appointed as Assistant Team Lead
- Developed frontend applications with Angular, React.js, and Vue.js, turning UI/UX designs into responsive websites
- Developed REST API using NestJS and PostgreSQL
- Experienced working with AWS & GCP
- Involved in integrating complex external plugins/third party services such as 2c2p, Data One & eKYC
- Built REST APIs on AWS Lambda using the Serverless Framework and Infrastructure as Code (IaC)
- Appointed as Tech Lead for multiple projects, providing technical solutions
- Collaborate with Solution Architect on infrastructure design and best practices

Software Engineer   2019 - 2020
MIMOS Berhad
- Contributed to the development of the Food Safety System Malaysia (FoSIM) for the Ministry of Health (KKM) - *fosim.moh.gov.my*
- Handled backend development with Java Spring Boot and frontend development with Angular.
- Designed and managed MySQL databases for assigned modules.

Software Engineer   2018 - 2019
Datakraf Solution Sdn Bhd
- Developed full-stack modules using PHP (Laravel MVC) and MySQL
- Developed Human Resource Management System (HRMS) using PHP Laravel for Syarikat Air Darul Aman (SADA)
- Integrated payment gateways (iPay88, FPX) into payment systems.
- Managed cloud and hosting using DigitalOcean droplets, NginX, Apache2 and CloudFlare
